```
graph TD; MN1[MobileNode] --- Bus; MN2[MobileNode] --- Bus; MN3[MobileNode] --- Bus; Bus --- Channel[Канал зв'язку];
```

The diagram illustrates a network topology where three MobileNode entities are connected to a common communication channel. Each MobileNode is represented by a rectangular box at the top, and the communication channel is a single wide rectangular box at the bottom. Three vertical lines connect the bottom of each MobileNode box to the top edge of the communication channel box, indicating a shared or bus-based connection.
